Summary

I'm Mohammed Sbit, a seasoned PHP developer with over 4 years of hands-on experience. Throughout my career, I've honed my skills in PHP, particularly within the Laravel framework and its extensive ecosystem. Having worked on a diverse range of projects, I've gained a deep understanding of PHP's capabilities and how to leverage Laravel to build robust, scalable applications. My track record demonstrates my ability to deliver high-quality solutions that meet both user needs and business objectives

Experiences

Gestion-Traiteur
Montreal, QC, Canada
PHP Developer
06/2022 - 03/2024

- Develop new features and functionalities using PHP and Laravel, adhering to industry best practices for clean, maintainable, and scalable code
- Embrace OOP principles to organize the code into reusable and modular components
- Designing and building databases using MySQL and Laravel's migration capabilities
- Integrate with external APIs and services, handle data exchange formats like JSON and XML, and implement error handling and authentication mechanisms
- Detailed documentation and analysis of code and processes to facilitate maintenance and collaboration
- Work in Agile environments, participating in sprint planning, daily stand-ups, and retrospective meetings

Viseo technologies
Casablanca, Morocco
